PAR APRIETE TORNILLO ID7 1,5 Nm
TIGHTENING TORQUE FOR ID7 SCREW 1,5 Nm

El par de apriete indicado es el necesario para que el conjunto del mecanismo quede correctamente montado pero a su vez permita, manualmente sin herramientas, la regulacion de la visera en altura y en inclinacion.

The indicated tightening torque is necessary to ensure that the entire mechanism is correctly assembled but also allows, the visor to be adjusted manually, without tools, in height and tilt.
